

INTRODUCTION

We deliver a comprehensive experience for our clients by providing the best quality services by utilising top notch equipment. We guarantee that quality is never compromised.

01 ABOUT US

KIO Construction, based in Saudi Arabia, specializes in the contracting, execution, and maintenance of tank projects and pipeline systems.

We handle projects across all stages — from site preparation and drilling, through construction, installation, and final commissioning — supported by complete electrical and mechanical works.

In the field of **tank construction and maintenance**, we strictly follow international standards like **API 650 & 653**
